SMS
designation #
415-374-9259

message format: **remove**<space>**group**<space>**group name**

in example: group name is "work"

Monster^o conferencing

How to use Connect

Connect me 9033231234

or

Connect me john

SMS
designation #
415-374-9259

message format: **connect**<space>**consumer phone number**<space>**called party phone number**

in example: consumer's phone number is represented with the word "me" & called party's phone number is 903-323-123. because that phone number is associated with contact john, you can simply use the contact name instead of the phone number.

How to use Conference

Conference me john
steve 5121234567

or

Conference me work

SMS
designation #
415-374-9259

message format: **conference**<space>**consumer phone number**<space>**participant #1 phone number**<space>**participant #2 phone number**<space>etc.

note: you can use contacts in message or group names. if a group name is used, all contacts belonging to that group will be called. a combination of contact, groups, & real phone numbers can exist in your text.

in example: the consumer's phone number is represented with "me" & the consumer is adding contacts john & steve & real number 512-123-4567.

Monster

conferencing

How to use Collect

+19033231234
+639151234567

SMS
designation #
415-374-9259

message format: **consumer's phone number**<space>**sender's phone number**

note: Collect is not a registered service. this means that anyone can initiate a Collect Text. the sender of the text in this scenario is not the consumer, the person that receives the phone call is the consumer. the consumer does need to own a Monstertel account (PIN) to enable his/her family & friends to use the service.

in example: a "+" proceeds country code of both phone numbers. the sender's phone number is 903-323-1234 & the consumers phone number is a Philippines phone number (country code 63).
